

Slideshow Edit (100 points)

Name: _____

Period: 1 4 5

Date : _____

Purpose: To learn how to capture footage, perform simple edits, add transitions, fade to and from black, add music to the audio track and fade the audio out at the end of the video.

Project Due Date: _____

Assignment: Capture the footage from your original slide show and add music and transitions to your video.

- Directions:**
1. Start a new Final Cut Pro project using the getting started document.
 2. Capture your slide show footage after saving your project.
 3. Find the first frame of your first picture.
 4. Go forward 15 frames using the right keyboard arrow.
 5. Trim the first picture to 5 seconds exactly.
 6. Add the picture to your sequence and trim the second picture and add to video.
 7. Trim each picture to 5 seconds exactly.
 8. Place the slides in the order you want in the sequence.
 9. Apply a **1 second cross dissolve** transition between each slide,
 10. Apply a **1 second cross dissolve** at the beginning of your video.
 11. Apply a **1 second cross dissolve** at the end of your video.
 12. Add music to your video.
 13. Apply a **1 second cross fade (0dB)** at the beginning of your video.
 14. Apply a **1 second cross fade (0dB)** at the end of your video.

Post-Production due date: _____

What to turn in:

1. You will show me your video when you are finished.
2. You will turn in this project sheet when I watch your video.

Grading Criteria:

1. Project is named properly and saved in your folder.
2. All footage and sequences in the browser are named, nothing is left untitled.
3. Use 10 slide show pictures.
4. Each slide is exactly 5 seconds.
5. 1 second dissolve between each slide.
6. Fade from black at the beginning.
7. Fade to black at the end.
8. Entire video is 50 seconds exactly.
9. Music is 50 seconds and fades in for 1 second at the beginning and out for 1 second at the end.

Score: ____/100
